

ZODIAC[®]
a better life[™]

AquaPure[®] Water Purification System

With a salt water pool, you will have soft, silky water, free of the annoying and harmful effects of conventional chlorine. The AquaPure Salt System converts salt into chlorine, and once the chlorine's purification work is done, it automatically converts back to salt, to be used over and over again.

And with any AquaLink[™] RS control system, you can adjust water purification levels with feedback on salinity levels. Of course, complete control of all your pool and spa features is at your fingertips as well.

Simply set the chlorine levels and AquaPure takes care of the details. You'll spend less time worrying about your pool and more time enjoying it. Salt water sanitizing is easy and affordable. So convert your ordinary pool into a salt water oasis today. Your family will thank you for it.

Revel in your Salt Water Oasis

Jandy[®]

EXPERIENCE A HIGHER QUALITY OF WATER

Add the AquaPure water purification system to your pool and spa system for automatic control and monitoring of chlorine levels. No more storing, handling or testing your chlorine again!

HEALTHY, INNOVATIVE AND CONVENIENT

1. Add Salt (only 3,000 parts per million)

2. Turn on AquaPure

As the salt in the water passes through the AquaPure cell, it converts to free chlorine where it continuously kills bacteria and algae while maintaining the desired sanitization in the pool water.

3. Sit Back & Relax

AquaPure is a closed loop system; there is no need to continually add chemicals. Once purification takes place, the free chlorine changes to salt which is used over and over again. It is environmentally safe and inhibits algae growth year-round.

3-PORT DESIGN FOR VERSATILE PLUMBING OPTIONS

ADVANCED AUTOMATION

- Full flow 3-port cell design provides flexible plumbing options and slotted sensor integration
- Precision adjustments to increase or decrease production of chlorine
- “Boost” mode for increased pool usage without chloramine build-up
- LCD displays level of chlorine production, salinity, temperature, water flow, cell mode and service codes

SPECIFICATIONS:

Model PLC1400C

Pool Size:	Up to 40,000 Gallons (150,000 Litres)
Input:	115 VAC, 50/60 Hz, 2.5 AMPS
	230 VAC, 50/60 Hz, 1.25 AMPS
Output:	22-30 VDC @ 6 AMPS maximum
Chlorine:	1.25 lb. / 24 Hr. (567 gm / 24 Hr.)

IMPRESSIVE WARRANTY

AquaPure is backed by Zodiac’s highly trained service and technical support team and carries a three year limited warranty.

ADVANCED CONTROLS

- Remote control when interfaced with Jandy AquaLink RS Control Systems
- Wired or wireless technology, Jandy systems control jets, lights, temperature settings, water purification and much more
